Tampa, FL 33602

Re: USDC/FL-MD/Tampa case no. 8:12-CV-2519-EAK-AEP,
Howse *ex rel. alia* v. Planned Parenthood, *et al.*, *et seq.*

Dear Mr. O'Neill, Civil Process Clerk, and/or Assistant U.S. Attorney:

Attached directly to this cover letter, please find one (1) copy of each *Summons* used for services made already upon the United States, via the U.S. AGO and also via the White House, while further enclosed please find one (1) service copy of each of the initial filings within this case, including the *Complaint*, assorted other paperwork, and a *Brief Summary Overview of Lawsuit*.

Assuming that your office will be the actual office doing the actual representation for most of the United States' various interests in this matter, please duly note that there exist at least two (2) areas or issues within the instant case wherein representation by any facet of USAG/USDOJ is directly contrary to and prohibited by the relevant federal statutory laws, including at least both the issue of constitutional lack of eligibility by the current occupant of our White House, and the issue of constitutional defense of ObamaCare, which requires your office to immediately notify the Senate General Counsel for it to enter its own direct Appearance in that matter, and to also immediately notify the General Counsel of the House of Representatives in regards to the same.

Please refer to those corresponding filings for further details on the various statutory mandates.

Your quickest ramp up to speed on this case will likely come from reviewing both the included *Brief Summary Overview of Lawsuit (Notice)*, and categorized summaries upon the case website: <http://fundamentalerror.com>

This case creates an instant large windfall in the minimum range of \$30-50 billion for divisions between the Federal Government, the States and Commonwealths, and local government units.

Your good time and attention herein is most obviously appreciated. With thanks, I remain,

Sincerely yours,

/s/ Torm Howse
